

There is no shortage of concerns and techniques that drive executive decision-making.

TOP CEO CONCERNS

86% of CEOs worry they lack the time to think strategically about the forces of disruption and innovation shaping their company's future.

Types of risks that most concerned them:

Strategic **Emerging** technologies

Geopolitical

Their top strategic priorities over the next three years:

*In this study, more experienced means more than five years.

of more experienced* CEOs adopt a more strategic approach to innovation, compared to 25% of less experienced CEOs

of more experienced CEOs believe it is important to foster a culture of innovation, compared to 63% of less experienced CEOs.

TORCHBEARERS VS. FOLLOWERS**

Those at each end of the spectrum have different strategic priorities and approaches.

For example, torchbearers are more ambitious ...

Explore new delivery channels

Torchbearers

Market followers

Reassess and alter customer segments

Torchbearers

Market followers

Enter new geographic markets

Torchbearers

... and more adaptable:

Embrace agility

Torchbearers

Market followers

Experiment extensively or somewhat

Torchbearers

Market followers

Torchbearers prefer more decentralized decision-making:

Torchbearers

Market followers

**In this survey, companies with strong reputations as innovators and strong financial track records are labeled "torchbearers." Companies with much lower market profiles (in the opinions of the executives who head them) and far less financial success are labeled "market followers."

THE POWER OF UNCERTAINTY

If you sometimes doubt yourself, you are not alone.

71% of CEOs say they have doubted themselves.

10% say they do not, but they do use techniques to reduce uncertainties.

19% say they never do.

94%

Nearly all CEOs emphasize the pace or speed of change as a complicating factor in their decisions.

LEVERAGING DATA AND ANALYTICS

63% of CEOs

believe they use data and analytics (D&A) effectively, but 59% do not fully trust the accuracy of their D&A activities.

Top company uses for D&A:

Driving process and cost efficiency:

44%

and change:

Finding new customers:

products and services:

LOSS AVERSION

Executives are more likely to take a risk if it seems like a way to avoid a loss.

When a decision was framed by its potential gains:

74% chose the safe plan of action

26% went for the riskier plan

When the same decision was framed by its potential losses:

55% said they would play it safe

45% would take the riskier action

This is a 73% increase in selection of the risky plan when framed by possible losses.

PREDICTING THE FUTURE

Executives use these techniques to foresee what is next in their industries:

Predictive analy

Prescriptive analytic
